A voice for young children

Sensory Tool & Equipment Library (STEL) catalogue 2023

OUR VISION: EVERY YOUNG CHILD IS THRIVING AND LEARNING

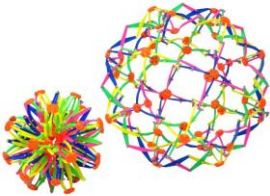

Early Childhood Australia

A voice for young children

STEL's mission is to harness the full potential of young children by providing an array of resources designed to boost sensory integration, self-regulation, motor skills, and cognitive development. With an extensive library of sensory tools and equipment, STEL is dedicated to aiding services in their mission to cultivate every child's abilities and gifts, regardless of their unique developmental hurdles.

Our extensive collection features a wide variety of versatile sensory tools and equipment. These include comforting weighted dolls and animals, soothing lap mats, engaging fidget tools, cozy bucket seats, invigorating swings, and many more. By centralizing these crucial resources and providing strategies for their implementation, STEL is set to bolster the capacity of Early Childhood Education and Care (ECEC) services. Our goal is to facilitate differentiated support, programming, and learning experiences that foster increased participation and contribution from all children. Discover the power of STEL – empowering every child, every step of the way.

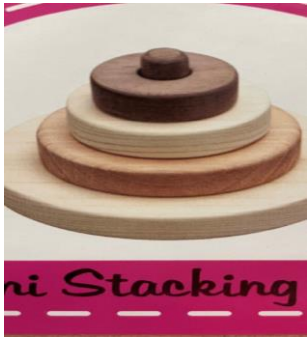

OUR VISION: EVERY YOUNG CHILD IS THRIVING AND LEARNING

<p>Paddle Ball Set Outdoor Game</p> <p><i>Item Number #085/ 1 to 5</i></p>	<p>The paddle ball set is an outdoor game that offers several sensory benefits, including gross motor development, hand-eye coordination, tactile and auditory stimulation, and social interaction. It requires large muscle movements and improves coordination and balance, while also enhancing hand-eye coordination and visual tracking. The paddles and ball offer tactile stimulation, and the sound of the ball hitting the paddle and ground provides auditory stimulation. Additionally, playing with others promotes social interaction and the development of social skills.</p>	
<p>Peanut Therapy Ball</p> <p><i>Item Number #027/1 to 3</i></p>	<p>The Peanut Therapy Ball is a tool used for sensory integration therapy that offers several sensory benefits. It provides deep pressure stimulation, which can be calming and improve body awareness, and its surface offers tactile stimulation. It can also improve gross motor skills, coordination, and balance, as well as promote core stability exercises that improve posture and stability. Additionally, the Peanut Therapy Ball can help to promote sensory integration, making it a versatile tool for individuals of all ages and abilities in therapeutic and non-therapeutic settings.</p>	

Name	Use Outline	Image
<p>Therapeutic stacking stones</p> <p><i>Item number #028/1 to 3</i></p>	<p>Therapeutic stone stacking, commonly used in practices like Zen gardens, art therapy, and mindfulness exercises, offers several sensory and cognitive benefits. It provides tactile stimulation, improving hand-eye coordination and sensory awareness. Stacking stones also requires visual-spatial reasoning, improving visual perception and spatial awareness. The concentration and patience required for stone stacking promote mindfulness, reduce stress and anxiety, and improve focus and attention span.</p> <p>Additionally, it offers a creative outlet, induces relaxation and tranquility, and can provide a sensory connection with nature.</p>	
<p>Royal Sensory Playmat Set of 30</p> <p><i>Item Number #028/1 to 2</i></p>	<p>The Royal Sensory Playmat Set 30 is a sensory tool designed to provide a range of sensory benefits, including tactile stimulation through different textures and surfaces, visual stimulation through bright colours and patterns, gross motor development through crawling, rolling, and reaching, and social interaction through group play. It promotes fine motor skills, hand-eye coordination, strength, coordination, balance, communication, and cooperation.</p>

<p>Sensory Reflective Mirror Balls - 4pcs</p> <p><i>Item Number #038/1 to 4</i></p>	<p>Sensory mirror balls are a versatile tool used in sensory rooms or play that offer a range of benefits for children. They provide visual stimulation that improves visual tracking, attention, and focus. Mirror balls also improve gross and fine motor skills and offer a unique sensory experience that helps children explore different textures and sensations. They promote spatial awareness and emotional development, including self-confidence and social skills, as well as cognitive development and critical thinking.</p>	
<p>Time Tracker With Alarm</p> <p><i>Item Number #039/1 to 3</i></p>	<p>A time tracker with an alarm, often used in educational environments as a tool that provides visual and auditory cues to help children understand the concept of time and to manage it effectively</p>	 <p>Early Childhood Australia A voice for young children</p>

Name	Use Outline	Image
<p>Ems For Kids</p> <p><i>Item Number #040/1 to 5</i></p>	<p>Ear muffs designed for children offer various benefits, including protection from loud noises, aiding concentration in noisy environments, providing comfort for sensory-sensitive children, serving as a sleep aid, offering protection from cold weather, and ensuring safety during loud events. These ear muffs protect children's hearing, help them focus, alleviate distress from sensory issues, promote better sleep, keep their ears warm, and prevent damage in loud environments.</p>	
<p>Scoop Rockers Chair set of 4</p> <p><i>Item #041/ 1 to 2</i></p>	<p>Scoop rockers are chairs designed for young children, offering comfort, fun, and practical benefits. They have a curved design that follows the body's contours, providing a comfortable seating option. The rocking motion adds entertainment value and engages children more than traditional chairs. Scoop rockers are lightweight and portable, allowing children to move them easily for different activities.</p>	

Name	Use Outline	Image
<p>Amazing Quicksand</p> <p><i>Item number #042/1 to 6</i></p>	<p>Amazing sand is often used as a sensory toy for children, as it provides a calming and therapeutic experience. It can be molded into different shapes, molded into sandcastles, or simply squeezed and molded for relaxation and stress relief. It does not dry out and can be reused, providing endless hours of creative and tactile play.</p>	
<p>Piano Play mat</p> <p>Item Number #043/1 to 3</p>	<p>The Piano Mat, Musical Keyboard Playmat Electronic Music Animal Touch Play Blanket offers several sensory benefits for children. It provides auditory stimulation by producing different musical notes and sounds, helping children develop their sense of hearing and auditory processing skills. The soft and squishy keys offer tactile stimulation, promoting the development of touch and proprioception. The mat's tactile feedback can also have a soothing effect, aiding in emotional regulation and stress reduction. Stepping on the keys provides proprioceptive stimulation, enhancing body awareness, balance, coordination, and spatial awareness. The vibrant colors and animal designs on the mat offer visual stimulation, capturing the child's attention and supporting visual development and tracking skills.</p>	

Name	Use Outline	Image
<p>Pin Art Sensory Tool Rainbow</p> <p><i>Item Number #044/1 to 2</i></p>	<p>Great for emotional regulation & all round fun! Press your face, hands or any object really into the plastic pins and what a 3D image form. These are a larger size version of the ones you mostly see.</p>	
<p>Magnetic Sand Timer</p> <p><i>Item Number #045/1 to 5</i></p>	<p>The Magnetic sand timers can be a fun and engaging sensory tool that provides a range of benefits for children, including visual and tactile stimulation, proprioceptive feedback, time management, and focus and attention</p>	

Name	Use Outline	Image
<p>Vibrating Pillow- Wally the Wombat</p> <p><i>Item Number #046/1 to 3</i></p>	<p>Vibrating pillows offer several sensory benefits for children. They provide tactile stimulation, promoting sensory integration and improving the sense of touch and proprioception. The gentle vibration can induce relaxation and relieve stress and anxiety. The pillows aid in sensory modulation, helping children regulate their responses to external stimuli and promoting self-regulation.</p>	
<p>Blipblox Synth</p> <p><i>Item Number #047/1 to 2</i></p>	<p>The Blipblox Synth can be a fun and engaging sensory tool that provides a range of benefits for children, including auditory stimulation, creative expression, fine motor skill development, sensory integration, and therapeutic benefits.</p>
